Net change in cash	(80,000)
Beginning cash	500,000
Ending cash	420,000

Management update

Nemo Demo CareFlow Co. | August 2026

Business

We sell care-coordination software subscriptions to hospital groups. These are company-level business metrics, not patient records.

Recurring revenue

At August 31, 2026, live recurring monthly subscription revenue is USD 100,000. Management-reported ARR is USD 1,200,000, defined as live recurring MRR times 12. This excludes implementation fees, unsigned pipeline, and contracts not yet live.

What changed

Revenue rose from USD 100,000 in July to USD 120,000 in August. A new hospital deployment added USD 10,000 of recurring subscription revenue and an additional USD 10,000 of one-time implementation revenue compared with July. The deployment went live August 1.

Risks

One customer representing USD 30,000 of live MRR renews in November 2026. The renewal is not signed. The account lead will present a renewal proposal by October 1; we are not assuming churn has occurred.

Help requested

Please introduce us to two hospital operations leaders for discovery calls and recommend a fractional finance lead.

Next milestone

Complete the next implementation milestone by September 30, 2026. No patient outcome or clinical efficacy claims are included in this update.
